

IUPUI

SCHOOL OF NURSING

INDIANA UNIVERSITY

Indianapolis

Dear Breast Cancer Survivors,

We need your help connecting us **to your partner/spouse** or others willing to be part of our study.

This study is called ***Partners of Breast Cancer Survivors Study*** and is being conducted by the IU School of Nursing.

The purpose of this study is to learn about partners'/husbands' needs after a significant other (wife/partner/girlfriend) is diagnosed with breast cancer. We are reaching out to you as someone who is interested in research and is in a relationship with or knows someone who may be interested in taking part in this study.

If you have been diagnosed and treated for breast cancer, your partner may be eligible.

Study participants will be asked to complete a 1-hour interview either in-person or over-the-phone.

He/she will be asked questions about what your breast cancer experience was like for him/her, what resources he/she needed, and how he/she got through it.

Participants will be compensated with a **\$25 gift card (Wal-Mart, Amazon, or Target)** for their time.

If your partner or anyone you know may be interested in participating in this study or would like additional information, please go to our [Study Page](#).

You may also reach out to the study team directly by contacting Andrea Cohee PhD, RN at 317-274-7139 or email: aamaners@iu.edu.

Thank you for your time and continued interest and support of research.

Sincerely,

Andrea Cohee, PhD
Assistant Professor, Community and Health Systems
Indiana University School of Nursing
